SUMMARY

Frontend Developer with 3 years experience in developing user Interface components for web applications with expertise in developing and testing scalable applications.

EXPERIENCE

Software Engineer

Perfexion Information Technologies Pvt. Ltd.

📅 04/2023 - Present 📍 Hyderabad

- Worked on an e-commerce website.
- Utilized Agile Methodology (Scrum), Test-Driven Development, and Component-Based Design for efficient project development and collaboration.
- Efficiently managed application state with Redux and Context API, resulting in a 25% reduction in component re-rendering.
- Optimized search functionality, achieving a 50% reduction in average search time.
- Reduced application crash by 30% by fixing bugs before they reached to production.
- Collaborated with the customer on-site during business User Acceptance Testing (UAT) and addressed over 50 defects.

Associate Software Engineer

Mphasis

📅 07/2019 - 10/2021 📍 Bangalore

- Developed the HP Smart website, a critical platform for managing and optimizing printer functionalities.
- Reduced page load time on website by 30% through a number of optimization techniques.
- Implemented a dynamic dashboard, providing users with real-time insights resulting in 20% increase in the accuracy of status information.
- Applied Redux for advanced state management, boosting responsiveness by 30% and maintaining consistent state across components.
- User experience testing of HP Smart portal & Embedded Web Server (EWS) with web inspectors to create flawless onboarding.
- Triaging the defects, reporting & tracking the failed test cases and raising bugs using tools like Jira, ALM, Test rail.
- Engaged in the design and development of automation test scripts using Python, with a focus on re-testing and regression testing.

EDUCATION

Bachelor of Technology

Rajeev Gandhi Memorial College of Engineering 📅 2014 - 2018

Percent
73 / 100

STRENGTHS

 **Coding Expert**
Proficient in HTML, CSS, JS, React and AWS.
